CRM Integration

- Supports all major CRMs: Salesforce, Microsoft Dynamics, Hubspot & more!
- Saves times and increases agent productivity!
- Know who's calling - matches caller ID to record in CRM
- Automatic creation of new customer records
- Call journaling & Chat logging

3CX MS Teams Integration

By integrating MS Teams with 3CX you get a powerful robust PBX that is easy to configure and use.

Benefit from added PBX features such as:

- Call reporting
- Call queues and routing
- Ring groups
- IVRs
- No-Teams compatible headsets required!

Hotel PBX

The Hotel PBX is optimised for internal and guest communication with features such as:

- Check-in/out of Guests
- Sets extension to match guest name
- Billing of external calls
- Scheduling of wake-up calls
- Blocking of external calls in vacant rooms

How can 3CX help your business?

- One single solution for all your business communications
- Improves agent productivity
- Enhances the customer experience
- Saves costs by up to 80%
